TEAM ID	SWTID -2026-5976
PROJECT TITLE	Visualizing housing market trends: an analysis of sale prices and features using tableau
MAX MARKS	4 MARKS

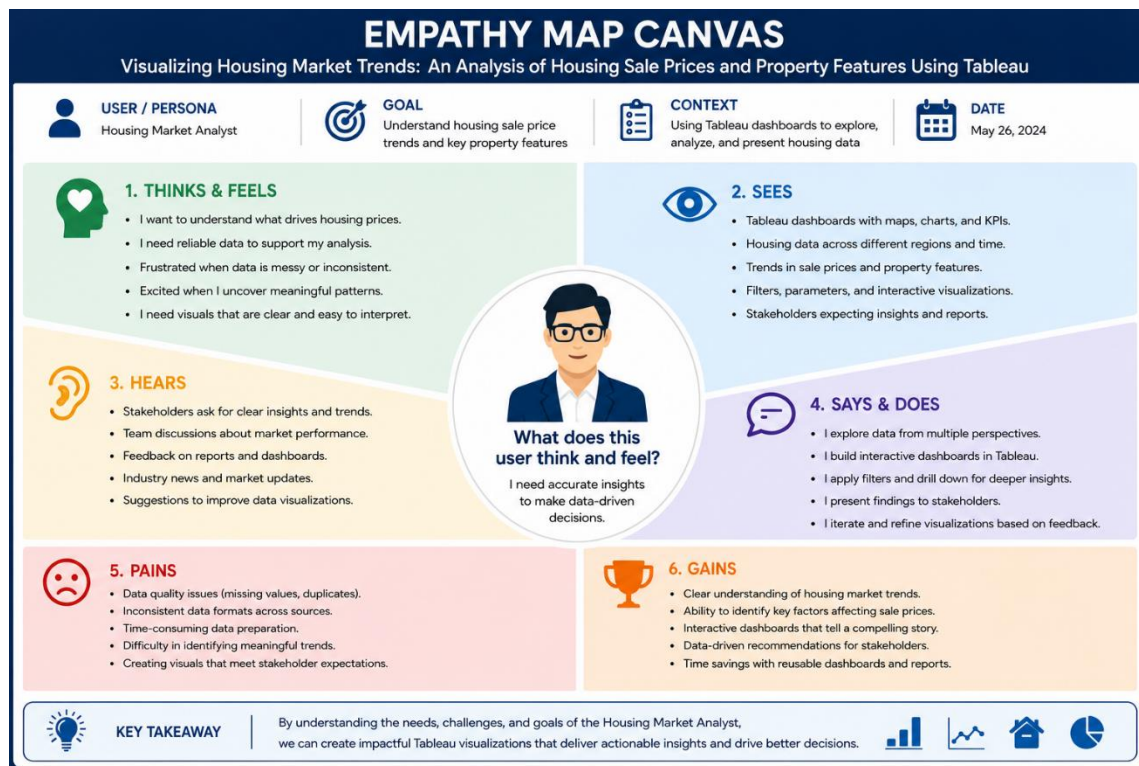

2.2 Empathy map canvas:

Empathy Map Canvas – Understanding Housing Market Trends: Looking At Sale Prices and Features With Tableau. The Empathy Map Canvas is a tool that helps us understand what people need and want when they are buying or selling a house. It looks at what buyers, sellers and real estate agents think and feel when they are dealing with the housing market. We want to know what problems they face and what helps them make decisions.

- People want to know the truth about housing prices what features a house has. What is happening in the market. Buyers are looking for houses they can afford that have what they need. Sellers want to know how much they can sell their house for.
- When people think about buying or selling a house they consider things like where the house's how big it is how much it costs if it will be worth more in the future and what the market is like. They want to have information so they can be sure about what they are doing.
- People look at houses compare prices study what is happening in the housing market and use pictures and charts to help them make good decisions.
- People can feel confused because the housing market is always changing and there is much information. They want to be able to look at pictures and charts so they can feel good about what they are doing.

Visualizing Housing Market Trends: An Analysis of Housing Sale Prices and Property Features Using Tableau

- It is hard for people to understand all the information, about housing to know if prices will go up or down to compare houses and to figure out what makes a house more or less valuable.
