PROJECT TITLE	Visualizing housing market trends: an analysis of sale prices and features using tableau
MAX MARKS	3 MARKS

6.6 – Creativity (publish)

Creativity in dashboard design is really important for making the housing market analysis project easy to read, use and look good. For the project "Visualizing Housing Market Trends: An Analysis of Housing Sale Prices and Property Features Using Tableau " choosing the font colors, layout and visual style helps users quickly understand housing market patterns and make smart decisions.

The dashboard should use fonts that're professional, clean and easy to read. This helps to communicate information. Fonts like Arial, Calibri, Segoe UI and Verdana are choices because they are easy to read on different screens and devices. Titles and headers in the dashboard can use bigger font sizes like 18 to 24 points. Chart labels, filters and legends can use sized fonts like 10 to 14 points. This makes the dashboard consistent and clear.

* Dashboard Bold 20 to 24 points

Having typography makes it easier to navigate the dashboard. It helps users focus on insights without distractions.

A good housing market dashboard uses an professional color palette. Here are some suggested colors:

* Dark Blue: shows trust, stability and professionalism

* Light Blue: good, for data visualization backgrounds

* Green: indicates market growth* Orange: highlights trends
